

## DR. THOMAS A. DANNENBERG

Dr. Thomas A. Dannenberg, or "Dr. T. A.," as he was affectionately known to his many friends and patients, was born in Rome, Texas, in 1880, into poor circumstances. Through self-effort and sacrifice, he gained his education as a medical doctor. After graduating from Physicians and Surgeons College in San Francisco in 1904, Dr. Dannenberg served his internship at Morton Hospital, in San Francisco, and then came to Utah.

He opened his first office in Kamas and after 22 years of service to the people of South Summit, traveling most of that time in horse and buggy, Dr. T. A. came to Heber, Utah, in 1926, to practice with his

**T. A. & MAUD DANNENBERG**

Our roll call of pioneers would not be complete without the names of T. A. Dannenberg and his wife. T. A. was born into poor financial circumstances in Texas in 1880. He acquired even his elementary training the hard way, through self effort. He was graduated from Physicians and Surgeon's College in San Francisco in 1904.

The hard work required to finance himself and long hours of mental effort to obtain his degree resulted in loss of health. He was under observation for T. B. Dr. Dannenberg refused to be bested by a mere bug. He went to the high country around Kamas and here he claims to have cured himself of the threat to his health.

It was here he met the lady who became his wife. She claims little formal education. She worked with her husband and became a good nurse and anesthetist. It is said of her—Maud Dannenberg is a lovely, gracious lady, whom we are proud to call neighbor and friend.

The Dannenbergs lived here 21 years. They made Heber Hospital a place of confidence and hope. During his practice, Dr. Dannenberg returned to school for further study eleven times. His studies and research have made definite contributions to better surgery—especially as it concerns stomach and intestines.

The respect of the community for these people is demonstrated each time they return for a visit.
